Getulio Ruiz

DevOps Engineer at CI&T

Lisbon

Summary

Italian/Brazilian dual-citizen graduated in Information Systems at
Universidade Paulista with 10 years of experience in Software
Development area, mainly in Software Architect and Fullstack
Developer roles with a DevOps mindset.

Experience

CI&T

10 years 10 months

DevOps Engineer

November 2021 - Present (6 months)

Portugal

Software Architect

August 2020 - October 2021 (1 year 3 months)

Leading a team of engineers where we develop and maintain an ecosystem
of scalable and distributed admission and promotions applications. Main
technologies: Java, Spring Boot, Oracle Database, AWS, GCP, Angular,
Node.js, Kubernetes, Docker, CI/CD, RabbitMQ and Redis.

Full Stack Engineer

April 2019 - July 2020 (1 year 4 months)

Campinas e Região, Brasil

As a Full Stack Engineer, I worked on a project with distributed and scalable
applications that deal with human resources such as payroll, promotions,
vacations and admission processes.

Support Analyst

March 2015 - March 2019 (4 years 1 month)

Campinas e Região, Brasil

Responsible for the support and maintenance of more than 10 web
applications, clarifying customer and user's questions, analyzing and executing
service requests, incidents, improvements and new features, ensuring that all
requests are delivered on planned / estimated time.

I performed root cause analysis of calls in order to reduce their recurrence and consequently reduce support cost for the company / customer. I also analyzed the indicators for the prioritization of demands and to elaborate plans of action of continuous improvement through the metrics.

Software Engineer
July 2011 - February 2015 (3 years 8 months)
Campinas e Região, Brasil

As a Software Engineer, I worked in projects with different business and technical complexities for clients from Brazil and North America developing new features and improvments for an ERP and an EDI (Electronic Data Interchange) system, helping a major industrial company migrate its old generation systems. Experience with IBM Websphere, EJB, Oracle, PL/SQL, JSP, Java, Struts, Spring Integration.
